

Bona Pet System™

Wood Floor Deep Cleaner

Bona Pet System Wood Floor Deep Cleaner is Bona's most powerful cleaner yet. Its oxygenated formula deep cleans, loosens and penetrates tough stuck-on materials, tracked dirt and accidental messes with the cleaning power of Hydrogen Peroxide.

Odour Guard Technology™ neutralizes urine and other organic odours on contact and continues to work for up to 5 days. For the best results, use Wood Floor Deep Cleaner with the Bona Deep Clean Pad with PowerLoop® technology.

Supplied ready to use, Bona Pet System Wood Floor Deep Cleaner is designed to be used to clean timber floors finished with a polyurethane or hard-wax oil coating system.

- Powered by Hydrogen Peroxide for a deeper clean
- Oxygenated formula removes heavy dirt build-up
- Odour Guard Technology™ neutralizes and removes odours
- Ready-to-use; just spray & mop.
- Use with Bona Deep Clean pad with PowerLoop technology
- Safe for wood floors with a polyurethane or hard-wax oil coating system
- Quick & easy cleaning leaving a residue and streak free surface

Technical data

pH-value:	Approx. 5
Shelf life:	3 years from date of production in unopened original container
Storage / transport:	The temperature must not fall below +5° C or exceed +25° C during storage and transport.
Disposal:	Empty containers are recyclable as hard plastic.
Ingredients:	Aqua, Hydrogen peroxide, Ppg-2 methyl ether, Capryl glucoside, Propylene glycol butyl ether, Alpha-ionone, Citric acid, Sodium hydroxide, Beta-caryophyllene, Citral
Safety	Unclassified
Sizes:	1 litre spray bottle / 2.5 Lt refill
Certification	Greenguard GOLD

Dry Cleaning

Remove pet hair, fur, dander and other loose dust / grit / surface materials etc. using the Bona Pet System™ Microfiber Sweeping Pad. The pad should be shaken / cleaned periodically to ensure that all materials on the floor are gathered.

Deep Cleaning

Spray a few square metres of the floor at a time with Wood Floor Deep Cleaner. Let the cleaner rest for a minute or so on the surface.

Wipe / rub the surface using the Bona OxyPower Microfiber Deep Clean Pad. Continue to clean the floor methodically, section by section.

It is important to rinse the Deep Clean pad well or replace it when it becomes dirty; it is usual to consider this step after 10 – 15 m².

To remove stubborn deposits, marks, sticky spills, etc. spray Wood Floor Deep Cleaner directly onto the affected area. Allow it to work for a few minutes and then scrub the spot clean with a Bona Deep Clean Pad. With larger dried deposits this process may need to be repeated.

Bona Pet System Cleaners contains Odour Guard Technology™ which instantly neutralizes and removes odours. Independent testing has shown that this continues to work for up to 5 days.

Bona Pet System Cleaners are suitable for daily use. The frequency of cleaning is dependent upon the level and type of use of the flooring.

Bona Pet System Wood Floor Deep Cleaner is safe for use on oiled floors. However, any cleaning of such floors with any detergent will gradually reduce the protection of a penetrating oil finish system. It is recommended that oiled floors are treated with a maintenance application once the surface starts to look dull or worn.

Care

Soiled cleaning pads can be washed by hand or machine washed at 60° without fabric conditioner / softener. All Bona microfiber pads can be machine washed at least 500 times.

Tip: To ensure the best electro-static charge possible tumble dry the purple Bona Pet System Sweeping Pad.

Never leave your mop standing with a wet pad face down on the floor surface when done cleaning – this may cause permanent damage to the floor surface.

Important notes
