

It's all in the solution

Bona offers a complete range of commercial maintenance products specially formulated for use with the Bona PowerScrubber machine to keep floors looking good throughout their lifetime. Bona cleaning solutions effectively clean surfaces so even the toughest dirt, grime and scuff marks are removed. With the Bona Deep Clean System you can be assured you see the floor and not the dirt.

Cleaner

Bona Cleaner is a concentrated detergent cleaner specifically designed for cleaning timber floors finished with polyurethane coatings. Bona Cleaner has no detrimental effect on floors or finishes. It is easy to use and suitable for commercial use on a daily or regular basis.

- Concentrated detergent cleaner
- Efficient, low-foaming formula
- Leaves no dulling residue
- For daily maintenance & regular cleaning
- GreenGuard certified
- Available in 5L

Deep Clean Solution

Bona Deep Clean Solution is a concentrated alkaline cleaner for thorough, deep cleaning of timber and hard surface floors including decks. The unique formula delivers optimal cleaning efficiency and removes stubborn scuff marks without the risk of damaging the existing surface. It can be used to revitalise dull floors or to prepare the surface prior to applying maintenance coatings or oil.

- Concentrated deep cleaner
- Deep cleaning of timber and hard surface floors
- Revitalises dull, dirty floors
- Dissolves deeply ingrained dirt and stubborn scuff marks
- GreenGuard certified
- Available in 5L

Remover

Bona Remover is a concentrated polish remover designed to remove Freshen Up or Bona Refresher from a floor prior to re-coating, or for use if the floor needs stripping prior to new Freshen Up being applied. Remover can also be used for stubborn black heel marks or to clean very dirty floors.

- Specifically designed for removing polish from previously coated floors
- Effectively cleans very dirty floors
- Removes scuff marks & black heel marks
- GreenGuard certified
- Available in 1L

Freshen Up

Bona Freshen Up is a ready-to-use water-based polyurethane product. Freshen Up revives a scratched and dull surface giving a newly finished look and continued protection against wear. Freshen Up does not contain any wax or polish, so floors can be easily re-coated at any time with any Bona finish such as Traffic HD.

- Water-based polyurethane, no wax or polish
- Good wear resistance
- Revitalises dull, dirty floors
- GreenGuard certified
- Available in 5L

Bona is a family-owned, sustainability driven company that supplies products for installing, restoring and maintaining premium floors. Founded in 1919, Bona was the first in the industry to offer a full system of waterborne wood floor finishing and floor care products.

Today Bona offers products for most premium floor surfaces including wood, tile, vinyl, resilient, rubber and laminate. The head office is in Malmö, Sweden, and the company is represented globally in more than 90 countries by its subsidiaries and distributors, with over 600 employees and 5 manufacturing plants.

CLEANS
MULTIPLE SURFACES

Bona Deep Clean System

Powerful and effective deep cleaning

Revive floors with an effective deep clean

Everyday use and the gradual build-up of dirt and residue can leave floors looking dull, tired and lacklustre. To restore floors to their natural beauty, Bona has developed a supremely effective professional deep cleaning system designed for a wide range of floor surfaces to bring back the fresh look and feel of a new floor.

Bring floors back to original lustre with an effective deep clean

Remove heavy dirt and grime build-up on floors

Optimal cleaning for multiple surfaces interior and exterior

Deep cleaning still suitable for sensitive floors

Cost effective cleaning, minimal downtime

Revives floors in a few hours with no need to leave premises

Keep floors looking great for longer

Floor surfaces exposed to everyday wear and tear can start to look tired and dull. The Bona Deep Clean System removes the dirt and grime that normal cleaning can't and brings back the look and feel of a new floor, without the need to vacate a home or close a commercial business.

The Bona Deep Clean System can be used to leave a floor looking clean and revitalised, or as part of a floor revival process prior to the application of Bona Freshen Up, Refresher or Traffic HD.

An integral part of the Deep Clean System is the Bona PowerScrubber. Far more effective than most buffing machines, the PowerScrubber incorporates counter rotating brushes as it dispenses and then removes the cleaning solution to leave the floor dry and perfectly clean.

The Bona Deep Clean System delivers gentle yet extremely effective cleaning of a variety of surfaces including timber, vinyl, decking and concrete floors – with no downtime. Ideal for commercial applications such as gymnasiums, restaurants and shops as well as residential homes.

✓ Revive floors in a few hours

The Bona Deep Clean System is a safe, easy and effective way of reviving floors that can be completed in just a few hours. This is a great option for customers wishing to restore the lustre and freshness of their floor without costly sanding and refinishing.

✓ No need to leave premises

The unique deep cleaning service is done without the need for vacating a residential home or commercial premises. Furniture can be replaced immediately and the fresh, clean floor can be put back into use.

✓ Wide range of surfaces

The Bona Deep Clean System provides optimal cleaning for timber, resilient, decking and sealed concrete surfaces. It is a gentle yet extremely effective treatment that works deep down to give floors a fresh look in no time.

✓ Deep clean performance

A commercial grade deep cleaning solution that delivers true performance to revive dull and tired floors. The range of powerful deep cleaning options provides an unmatched result that regular cleaning can't match.

Powerful machine - gentle treatment

The Bona Deep Clean System incorporates the Bona PowerScrubber together with Bona Deep Clean Solution to enable fast and effective deep down cleaning. The Bona PowerScrubber delivers powerful performance as well as the benefits of ergonomic transportation, set-up and operation.

With easy to change counter rotating brushes, variable cleaning pressure adjustment, twin squeegees for forward and reverse operation, plus dual 10 litre tanks for fresh and dirty liquid, the Bona PowerScrubber delivers effective deep cleaning with no downtime. Whether on vinyl, concrete or timber floors and decks, the Bona PowerScrubber removes the toughest dirt and grime with no risk to the surface, leaving it clean and revitalised. Amazing results - guaranteed.

Bona PowerScrubber 2.0

- ✓ More effective than buffing machines
- ✓ More powerful than many auto scrubbers
- ✓ Gentle yet effective for sensitive floors
- ✓ Interchangeable brushes
- ✓ Wide range of surfaces
- ✓ Easy to use and transport
- ✓ 2 year warranty

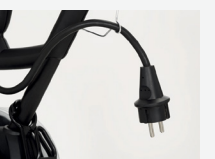

Counter-rotating roller brushes

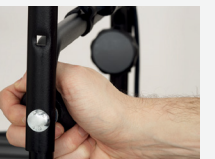

Operates in a counter-rotating motion as opposed to most machines with circular operation. The counter-rotating technique provides considerably higher pressure per unit area, resulting in far better results and no swirl marks

Cable Hanger
Keeps the cable out of the way during operation

Easy Handle Separation
Quick cable connector for easy cable separation and handle detachment during transportation

Visible Liquid Level
A transparent water tank cap enables easy monitoring of the water level

Ergonomic Design & Operation
The unique design enables the machine to clean closer to walls. The excellent suction via rubber squeegees removes all liquid residue from the floor

'Click-in-place' brushes

The 'Click-in-place' counter-rotating brushes ensure maximum cleaning efficiency. Easily mount the brushes to the Bona PowerScrubber base, choosing between the two different brush types to suit the project.

The white roller brush is suitable for most interior floor surfaces including solid timber, engineered, vinyl and concrete.

The red roller brush is more abrasive for applications such as decking and exterior surfaces.
