

BONA CLEANER

Bona Cleaner is a highly concentrated, slightly alkaline cleaner specifically designed for the cleaning of finished wood and cork floors. Bona Cleaner can be used for regular mopping or in a machine based cleaning programme.

- Specifically designed for finished wood and cork floors
- Efficient, low-foaming formula
- Leaves no dulling residue
- For daily maintenance and regular cleaning

Technical data

Dilution:	Normal cleaning: 50ml to 5 litres of water (1%) Heavily soiled floors: 100ml to 5 litres of water (2%)
Safety:	Unclassified
Shelf life:	At least 2 years, from the date of production, in unopened original container
Storage / transport:	Store frost free.
Pack size:	1 & 5 litres

Preparations

Remove loose dust / grit etc. using a vacuum cleaner, scissor mop or other dry cleaning method.

Application

Dilute the concentrate as required for the condition of the floor. Clean the floor using a mop or an auto scrubber equipped with a white or tan pad. N.B. excessive use of water may damage the floor. Always keep the amount of water used to clean to a minimum and be careful where the floor has open gaps. When using a standard mop replace the cleaning water periodically to avoid streaking.

Auto-scrubber

1. Always fill the tank with clean water prior to use.
2. Run the machine along, never across, strip / plank floors.
3. Water should be removed promptly; do not leave puddles when turning with the machine. N.B. Water loss must not exceed 1 Lt / 100 m²
4. If distributing water with the machine, remove the water within 3 minutes.
5. Do not clean timber flooring using brushes. Cleaning pads should be used. Do not use aggressive pads as they may scratch and wear the surface.

Important notes

The information provided is prepared to the best of our current knowledge and makes no claim to be complete. The User is responsible for establishing that the product and recommendations herein are fit for the designated purpose, wood type and present situation before use. Bona can only guarantee the delivered product. A professional and thereby successful application of the product is beyond our control. If in doubt make a preliminary test. The User is required to read and understand all information contained on package labels and safety data sheets before using this product.
