PREPARATION

First remove loose dirt and grit from your floor using a Bona Microfiber Dusting Pad or Vacuum cleaner.

INSTRUCTIONS FOR USE

Mist the cleaner onto a section of the floor and then wipe clean. Continue to clean the floor section by section. Rinse and wring out cleaning pad as it becomes soiled.

On stubborn spots, spray some cleaner directly onto the spot and let it work a few minutes before scrubbing and wiping off.

Note: Bona Wood Floor Cleaner can be used on oiled wood floors. However, as with any form of regular damp cleaning of an oiled wood floor, the protection and appearance will gradually diminish over time. We recommend that oiled floors are treated with a maintenance oil once the floor starts looking dull or worn.

Avoid leaving your mop standing with a wet cleaning pad face-down on the floor surface when done cleaning – this may cause permanent damage to your surface.

REFILLING

Bona Wood Floor Cleaner is available in 2.5 litre & 4 litre Economy size refills, so you don't have to buy a new spray bottle every time you run out of cleaner. This will help you save both plastic waste and money.
