SEE OVER FOR WHAT FLEXISAND CAN DO...

Bona FlexiSand 1.9 gives you the ultimate power of flexibility

The Bona FlexiSand 1.9 can be equipped with different drive plates and optional extras for a variety of jobs including sanding to bare timber, fine sanding, concrete grinding, application of oil or stain and even for cleaning.

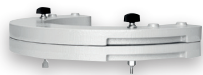

FlexiSand is the complete tool kit that enables you to carry out every step of the sanding and finishing process and much more. When used with the Bona DCS 70 or 50, it provides 99.9% dust free sanding as well.

Pad Drive Plate

405mm drive plate included with FlexiSand

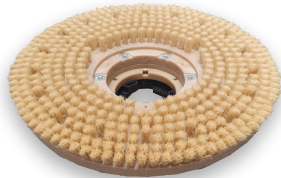

Optional Accessories

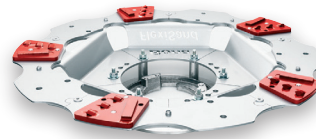

Optional 7kg weights for aggressive sanding

Optional powerful LED Headlamp

Tampico Brush
405mm Electrostatic brush to remove fine dust

Concrete Disc
405mm disc to grind and prepare concrete surfaces

Bona PowerDrive Connect

Simple, quick, click-on Connect System

Unsurpassed power and direction-free sanding with four gear driven cogs. Easy click and connect to 150mm Sanding Discs, Wire & Nylon Brushes, ErgoEdge and Diamond Discs

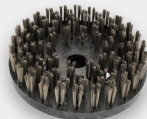

Steel Plate Discs
Rigid steel discs for use on flat floors

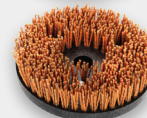

Ceramic Abrasives
Easy sanding of coarse and dense timbers

Diamond Abrasives
Fine surface abrasion of all types of hard coatings

Wire Brushes
Create unique natural textured timber effects

Tynex Brushes
Nylon brush to soften grain edges after wire brushing

Diamond Discs
150mm Diamond disc plates make the toughest of floors easy

Bona ErgoEdge

A revolution in upright edge sanding with optimal control

- 4 x extra wide 178mm discs gets closer to the wall
- Special flexible disc design and wall guard distance wheel
- Fast, easy, upright edge sanding reduces the need to use an edger by up to 70%
