

Great surfaces for great games
 Bona SuperSport System for court surfaces

Bona®

Bona's SuperSport System

The Bona SuperSport System provides a dedicated solution for sports floors. Bona SuperSport finishes provide unparalleled excellence in application and performance resulting in optimised slip resistance, sheen levels and durability. With a long track record in sports floor treatment, Bona's SuperSport system is an evolution that continues to grow to meet the challenges that sports floors demand. From top national leagues around the world to multi-sport halls, wood basketball courts and resilient surfaces, Bona SuperSport beats industry requirements and exceeds expectations.

✓ Slip Resistance

Sports floors need careful attention to slip resistance to ensure adequate traction. The right slip resistance can play an important part in preventing injuries. The Bona SuperSport System is especially designed for areas requiring extra safety.

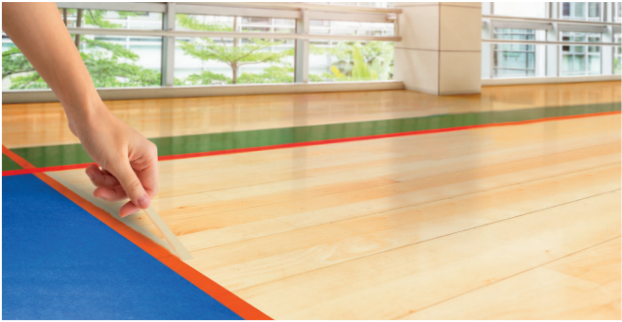

✓ Easy Care & Maintenance

Preventative maintenance is the key to longevity for any sports floor. The Bona SuperSport System has all the necessary products for effective care of indoor sports floors, removing marks, stains, sweat and oil build-up in one go.

✓ High Durability

A sports floor places very specific demands on paints and finishes. Unlike ordinary floors, sports floors are subject to intense impact, movement and flexing due to the tempo of modern sports.

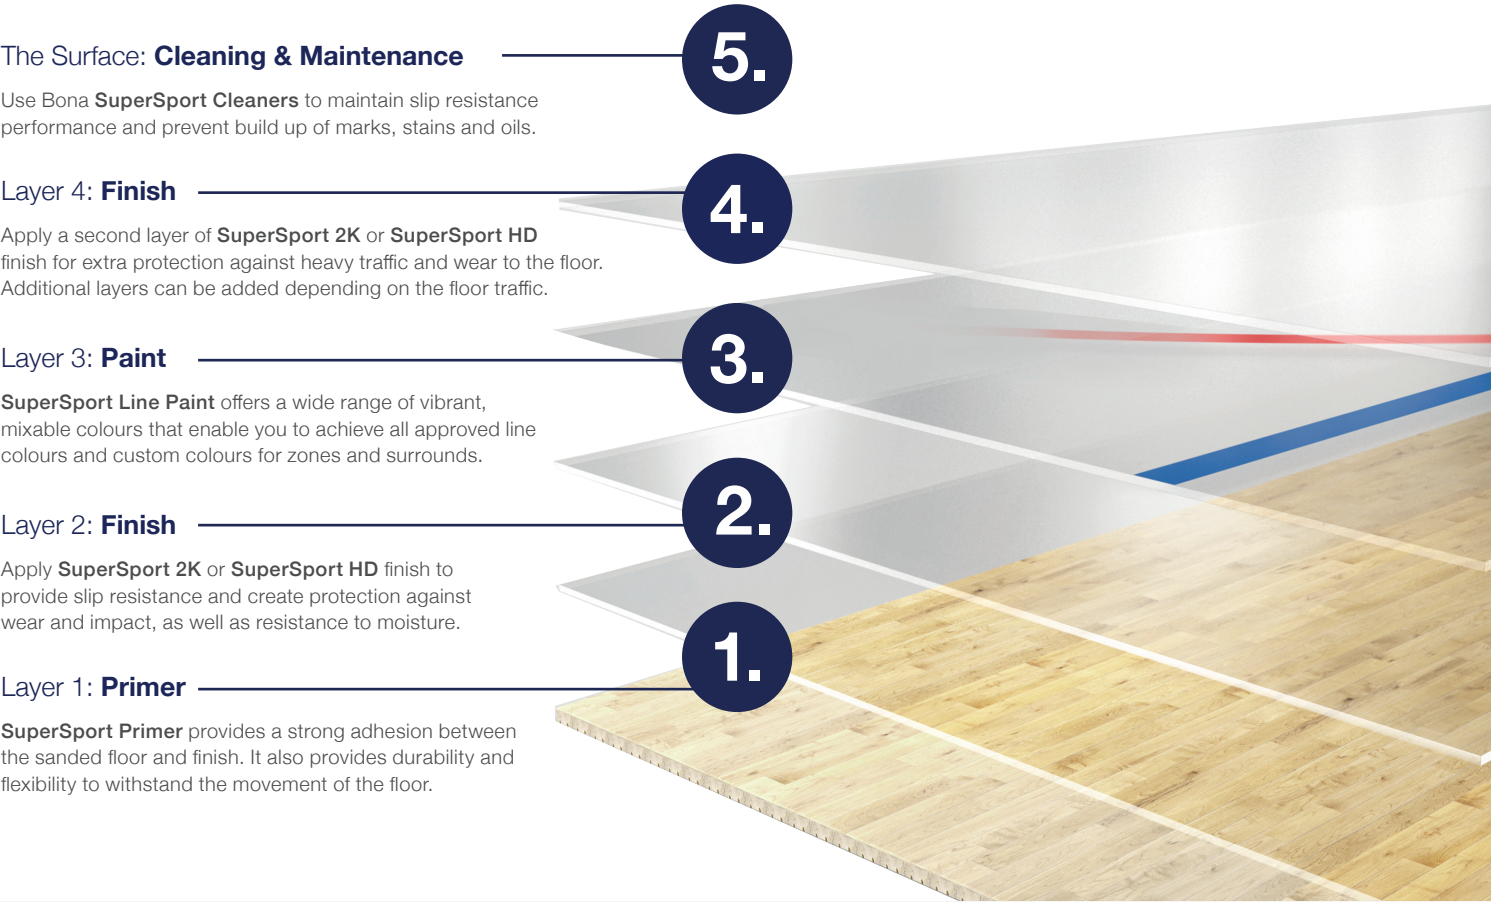

✓ Visual Markings

With the Bona SuperSport System, there's no need for compromise in terms of style or visual impact on wood or resilient flooring. Bona offers a range of mixable colours to help you achieve all standard line marking colours plus an array of custom colours for zones and surrounds.

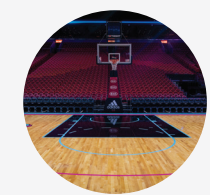

Layers for a great foundation

Success is built on a strong foundation, with every layer playing a crucial role in top sports performance. The Bona SuperSport System is a complete system with all the necessary products for painting of line markings and zones, to application of primers and finishes and proper maintenance procedures. The finished surface is optimised for sports challenges, in terms of both slip resistance and durability. Bona's cleaning and maintenance system also ensures the floor's original properties are retained throughout its lifetime.

Areas of application

Great games come from great performance. Bona's SuperSport System has a variety of floor coatings to meet the needs of athletes covering everything from basketball and badminton to volleyball and netball. Whether it's a school, training facility, multi-sport hall, indoor space or even an Olympic court, Bona's complete range of solutions including primers, finishes, paints and cleaners ensure the best results in minimal time.

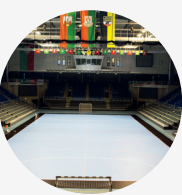

Specialised Sports

Multi-sport Surfaces

Schools & Universities

Multi-purpose Halls

Used by the world's top leagues

Bona SuperSport finishes play an important role in ensuring the highest standards in sports floor performance for venues such as Olympic courts and professional league arenas. With Bona, nothing less than world-class standards can be expected, which is why Bona is used by leading organisations around the world.

✓ **FIBA Certified**
Bona is an official FIBA (Federation International Basketball) partner. FIBA is the worldwide governing body for basketball recognized by the International Olympic Committee (IOC).

✓ **NBA League courts**
Bona SuperSport coatings and maintenance systems are used on NBA courts in America & Canada in the world's premier basketball league.

Easy process, optimal results

Bona's SuperSport is a system of products specially developed to meet the requirements of modern sports floors. From primers and finishes to paints and cleaners, everything is developed with full compatibility in mind to ensure the best results in minimal time and a smoother, easier working process.

Preparation

1.

SuperSport Primer

One-component water-based primer

For untreated timber sports floors. Excellent adhesion and side-bonding reducing properties creates an optimal foundation for further treatment and line-marking. Made from a polyurethane dispersion consisting of 70% renewable raw materials, being easy to abrade and apply.

- Reduces risk of side-bonding
- Medium-rich wood colouration
- Excellent abrasion properties
- Available in 5L

Line Marking

3.

SuperSport Line Paint

Specialist two-component line-marking paint

For use in line mark painting on indoor sports floors. Developed for use with the Bona SuperSport System for both timber and resilient flooring, available in a range of colours.

- Fast drying 1-2 hours
- Water-based low VOC
- Can be mixed for custom colours
- Available in 8 standard colours

Available in 8 vibrant colours

Premium Protection

2. 4.

SuperSport 2K

Two-component water-based timber finish

With high durability specifically formulated for professional use on indoor sports floors, providing a tough, high-build polyurethane finish. Clear, non-yellowing formula which complies with the European standard for indoor sports floors.

- High resistance to wear and scuff marks
- Low odour
- Easy application
- Available in 5L

SuperSport Deep Clean

Deep concentrated cleaning

Optimal deep cleaning designed to remove black heel marks and scuff marks as well as the build-up of body fats and contaminants from surfaces.

- De-greases floor & restores friction
- Removes scuff marks and heel marks
- Leaves no slippery residue
- Available in 5L

SuperSport HD

Premium two-component water-based timber finish

Specifically formulated for professional use on timber sports floors. SuperSport HD provides a tough, high-build polyurethane finish in compliance with the European standard for indoor sports surfaces.

- Extreme resistance to wear and scuff marks
- Very low odour & emission
- Available in 5L

SuperSport Cleaner

Efficient everyday cleaning

Designed for the frequent cleaning of finished timber and resilient sports floors. Gentle on the surface yet effectively removes surface dirt and contaminants.

- Leaves no slippery residue
- Removes everyday grime
- Low emissions
- Available in 5L

A complete sport system

Bona is the only company that offers a complete system of products for specific use on indoor sport floors. The Bona SuperSport System delivers superior results that gives any facility a beautiful floor for years to come.

As well as a finishing system that meets and exceeds all international standards for VOC'S, durability and slip resistance, Bona's cleaning and maintenance solutions ensure the floor's original properties are preserved for longer.

Bona Sanding Machines

Large sports floors often mean a tedious sanding process. However, this can be easily achieved with Bona sanding machines which makes the process quicker and smoother. Bona Belt Sanders, Edge Sanders, FlexiSand Rotary Sander and DCS-70 (Dust Containment System) ensure a perfectly flat and dust-free surface before finishing with the protection the floor needs and deserves. Bona sanding machines are made in Milan, Italy and are backed by a 2 Year Warranty.

Bona PowerScrubber 2.0

With correct cleaning and regular maintenance, a sports floor will remain durable throughout its lifetime. This minimises the downtime and hassle of renovation, making it more economical in the long run. Bona SuperSport cleaners used together with the Bona PowerScrubber provide the mechanism to effectively clean sports floors to remove the build-up of body fats and dirt and maintain surface slip resistance.

The Bona PowerScrubber enables the most effective deep-down cleaning, combined with unrivalled versatility and ease. Counter-rotating roller brushes provide deep, effective cleaning while the powerful, yet compact design delivers excellent performance.

Partners with NBA champions

Bona were proud to help propel the Boston Celtics to their first National Basketball Association championship win in 16 years when they successfully took the crown in 2024. At the Boston Celtics home court arena in Massachusetts, the Bona SuperSport System including primer, top coats and line paint were used to finish the floors to provide the ultimate in durability and beauty, while the Bona Sport Maintenance System is used to preserve, clean and maintain the floors.

Bona is proud to be the official hardwood floor care partner for the Boston Celtics and has been an integral part of professional basketball floors for nearly two decades with Bona products used in the NBA, USA Collegiate floors and European basketball competitions.

From dustless sanding and abrasion to our design-driven paints and finishes, the Bona SuperSport System provides a flawless road map for flooring contractors from start to finish. Bona is the only complete system specifically designed for athletic flooring systems from sanding and finishing to floor care. Contact us for further examples of outstanding sports floor results from around the world which utilise the Bona SuperSport System.

Boston Celtics NBA Court, USA
Boston Celtics - Massachusetts, TD Garden Arena

Miami Heat NBA Court, USA
Bona finishes were selected to coat the Miami Heat show court at the Kaseya Center in Florida to provide the required levels of grip and protection.

Brooklyn Nets NBA Court, USA
The Bona SuperSport system was used to finish the floor and the sport maintenance system was used to clean and preserve the floor of the Brooklyn Nets court.

Paris Olympic Courts
Lille Metropole court and Vendéspace court in La Roche/Yon hosted both basketball and handball events at the 2024 Summer Paris Olympics.

Rio Olympic Arenas
Bona finishes and paints were used on a total of 8 sports arenas at the 2016 Rio Summer Olympics.

Bona[®]

Passion for timber floors

Bona is a family-owned, sustainability driven company that supplies products for installing, restoring and maintaining premium floors. Founded in 1919, Bona was the first in the industry to offer a full system of water-based wood floor finishing and floor care products.

Today, Bona offers products for most floor surfaces including timber, tile, vinyl, resilient, rubber and laminate. The head office is in Malmö, Sweden and the company is represented globally in more than 90 countries by its subsidiaries and distributors, with over 600 employees and 5 manufacturing plants.

GREENGUARD GOLD Certified

SuperSport primer and finishes are GREENGUARD GOLD indoor air quality certified. This means no toxic fumes and strict compliance to low VOC requirements.
